

Privacy Policy

Preamble

We, Prophet ("**we**" "**us**" or "**our**"), drew this privacy policy ("**Privacy Policy**") for you or the party on whose behalf you are acting ("**you**", "**your**"), because we are committed to the protection of your personal data ("**Personal Data**"). We provide this Privacy Policy to inform you of our Privacy Policy and practices, and of the choices you can make about what information is collected, the manner in which that information is collected and how that information is used.

This Privacy Policy relates to the information collection methods and practices when you access our services ("**Product**" and/or "**Service**").

You must agree to all provisions hereof, otherwise you may not begin or must discontinue using our Products and Services.

1 Terms and Definitions

The following terms shall be used in the meaning as specified below:

"**Product**" means any product developed by us including, without limitation, explorers, APIs, indexers, etc.

"**Service**" means any service provided by us including, without limitation, staking services, research and analysis, development, consulting, etc.

"**Brand asset**" means the name and logo of any of our Products or Services.

"**Client**" means person who uses, and/or aims to use our Products and/or Services.

"**Cookie**" means an element of data that a website can send to the User's browser, which may then store it on the User's system.

"**Confidential Information**" means all information disclosed by a party ("**Disclosing Party**") to the other party ("**Receiving Party**"), whether orally or in writing, that is designated as confidential or, given the nature of the information and the circumstances of disclosure, should be understood to be confidential.

"**Partner**" means any individual or legal entity that conducts joint activity with us for the purpose of mutual benefit.

"**Third Party**" means any individual or legal entity other than the User.

"**User**" means any individual or legal entity that uses the Products or Services.

Other terms shall be used as defined in our other official documents or the official documents of Third Parties.

2 Types of Data Collected

The types of data we collect as we provide our Products and Services may include without limitation to the following:

- personal information that links back to an individual including without limitation name, gender, date of birth, social media accounts (such as but not limited to Twitter, Telegram, LinkedIn, Facebook, Medium), contacts (e-mail, Slack, WeChat);
- company information that links back to a company including without limitation company name, logo, website, social media and information platform accounts ((such as but not limited to Twitter, Telegram, LinkedIn, Facebook, Medium), contacts (e-mail, Slack, WeChat), GitHub Repository, official documentation, brand assets;
- technical information including without limitation IP address for API services and login, browser type and language, referring and exit pages and URLs, date and time, amount of time spent on particular pages, information about your device, including without limitation the type of device, universally unique ID, advertising identifier, MAC address, operating system and version (e.g., iOS, Android or Windows), carrier and country location, hardware and processor information (e.g., storage, chip speed, camera resolution, NFC enabled), network type (Wi-Fi, 3G, 4G, LTE), activity and usage information, including without limitation pages viewed, preferences, session lengths and similar data;
- validator information including without limitation staking provider name, logo, address, validator fee, terms of payment, website, social media and information platform accounts (such as but not limited to Twitter, Telegram, LinkedIn, Facebook, Medium), contacts (e-mail, Slack, WeChat), GitHub Repository, official documentation, brand assets;
- wallet information including without limitation wallet name, wallet ID, wallet logo, wallet transactions, wallet assets, website, social media and information platform accounts (such as but not limited to Twitter, Telegram, LinkedIn, Facebook, Medium), contacts (e-mail, Slack, WeChat), GitHub Repository, official documentation, brand assets;
- statistical data (such as but not limited to data received from Cookies, Google Analytics, etc.) including without limitation highlight versions, NFT views, website hits, number of users, geolocation of users, etc.;
- data provided by Third Parties.

3 Data Collection Methods

3.1 We collect Personal Data when you:

- engage with our products and services;
- submit data to us (account, validator, wallet, project, coin, SCAM reports);
- engage with our partners and submit data to them.

3.2 Some of the other ways we may collect Personal Data shall include without limitation:

- communications via telephone, mail, fax, email, social media or any other medium of communication;
- personal off-line contacts;
- information we gain about you from Third Parties and other channels (e.g. support helpdesk);
- information we gain by our own research and analysis efforts.

4 Data Collection Tools

From our website, we collect your Personal Data as follows:

4.1 IP address

We use your IP address to help diagnose problems with our server, and to administer our website.

4.2 Cookies

We use cookies in our pages to store your preferences and record session information, particularly highlight versions and NFT views. The information that we collect is then used to ensure a more personalized service level for Users. You can adjust settings on your browser so that you will be notified when you receive a Cookie. Please refer to your browser documentation to check if Cookies have been enabled on your computer or to request not to receive cookies. As Cookies allow you to take advantage of some of our Products' essential features, we recommend that you accept cookies. It is important that you prevent unauthorized access to your password and your computer. You should always log out after using a shared computer. Information collected from Cookies is used by us to evaluate the efficiency of our Products' websites, analyze trends, and manage Products. The information collected from Cookies allows us to determine such things as which parts of our site are most visited and difficulties our visitors may experience in accessing our site.

4.3 Submit forms

We implement name service to make sure Users, their companies, projects and assets are noticeable and recognizable in the system. For this purpose we use forms, through which you can submit data about your account, validator, digital asset (coin or token), or ecosystem project. You can also report SCAM for an account that, to the best of your knowledge and perception, behaves suspiciously, or a coin that has an indication that it is used for SCAM purposes, of which you have clear and tangible proof, which adds up to the security of our Products and Services.

4.4 Collection of Public Blockchain Addresses

At Prophet, we take our responsibility within the blockchain ecosystem seriously. To ensure the utmost transparency, integrity, and effective operation of our services:

- (Collection of Addresses) We collect and store the public blockchain addresses of our users. This is vital to facilitate various operations, features, and functionalities we offer, especially in relation to the blockchains where we launch or maintain validators.
- (Multiple Blockchain Support) As we expand our services and engage with different blockchain networks, our collection might encompass addresses from various blockchains—those we currently support, and those we plan to support in the foreseeable future.

4.5 Third-Party Services

We may also use Third Party service providers, to assist us in better understanding the use of our Products' websites (e.g. Google Analytics). The information and analysis provided by our service providers will be used to assist us in better understanding our Users' interests in and how we can better serve those interests. The information collected by our service providers may be linked to and combined with the information that we collect about you while you are using our Products or Services.

4.6 Web Server site visits logging

We keep track of web server logs to track the rate of requests, prevent certain types of attacks against us (DDoS attacks), and maintain integrity of our Products and Services.

5 Data Collection Purposes

We hereby state that we use your Personal Data for the following purposes:

- to enable us to improve the quality and security of our Products and Services;
- to protect the safety and well being of yourself and/or other customers;
- to provide high-quality support and consulting services;
- to investigate and respond to your claims and inquiries;
- for business development purposes such as statistical and marketing analysis, systems testing, maintenance and development, customer surveys or to help us in any future dealings with you, for example by identifying your requirements and preference;
- to comply with any legal or regulatory requirements, and/ or
- to foster and accelerate the development of blockchains and blockchain ecosystems;
- to conduct research and analysis and share the findings and insights with users;
- to make contribution in Web3 development;
- to verify transactions and activities related to our services;
- to enhance the security measures we have in place;
- to provide support and troubleshooting assistance;
- to offer updates or new features relevant to particular blockchains.

We undertake to use your Personal Information in accordance with this Privacy Policy unless otherwise required by applicable law.

6 Legal Basis for Personal Data processing

Why we collect processes your data.

- 6.1 Legitimate Interest. Personal data may be collected, processed and kept in accordance to our legitimate interest. Specifically, it may be collected processed and kept to take the necessary steps at your request prior to entering into a service agreement with the Client, as for example for Client onboarding process or to assess whether a service shall be provided to Client, in accordance with our client acceptance procedure as well as the competent regulator's instructions.
- 6.2 Contractual Basis. During the course of our engagement, you may disclose personal data to us. The personal data that you will be disclosing is necessary for us in order to provide its Services to Client in accordance with the Agreement.
- 6.3 Legal Basis Processing. You confirm to be aware that as per the applicable laws, we have the duty to keep your data for 5 years after the business relationship has ended.
- 6.4 Legal Basis. Furthermore, personal data may be collected, processed and kept in accordance with the Anti Money Laundering Laws as applicable in the UAE.

7 Sharing Personal Data

7.1 Your Personal Information may be shared with:

- our employees, contractors, consultants, affiliates, and other parties who require such information to assist us with establishing, maintaining, and managing our relationship with you;
- another party in the event of a change in ownership of, or a grant of a security interest in, all or a part of Company;
- our parent companies, subsidiaries, affiliates, joint ventures, or other companies under common control with us.

7.2 In addition to clause 7.1 hereinbefore, we may also disclose Personal Data in the following circumstance: either (a) when required by law, court order, or other government or law enforcement authority or regulatory agency, or (b) whenever we believe that disclosing such information is necessary or advisable, for example, to protect the rights, property, or safety of Company or others.

7.3 You acknowledge and agree that in the event of a corporate sale, merger, reorganization, sale of assets, dissolution, or similar event, we may transfer your information to our successor entity, either after such a transaction or as part of due diligence processes while such a transaction is being contemplated. You further acknowledge and agree that in the event that the equity ownership interests in Company are transferred to new shareholders, and in the event that we issue new equity interests, we may undergo a change of control whereby control of us is transferred to new persons.

8 Third Party Websites

8.1 We may link the websites of our Products and/or Services to other companies' or organizations' websites ("**Third Parties**"). The terms and conditions hereof may not apply to such Third Party websites since they are not in our control. If you access Third Party websites using the links provided, the operators of these sites may collect your personal information.

8.2 We shall not hold liable or indemnify for any damage or loss arising from breaches of privacy or any other privacy policy violations incurred as a result of your use of such Third Party websites. Please ensure that you are satisfied with the privacy statements of such Third Party websites before you submit them any personal information.

9 Waiver

This Privacy Policy does not create or confer upon any individual any rights, or impose upon us any rights or obligations outside of, or in addition to, any rights or obligations imposed by federal, state, and/or provincial privacy laws, as applicable. Should there be, in a specific case, any inconsistency between this Privacy Policy and applicable privacy laws, this Privacy Policy shall be interpreted, in respect of that case, to give effect to, and comply with such privacy laws.

10 Effective Date

This Privacy Policy shall be in full force and effect starting with the date it is posted online and shall remain active until its suspension or termination.

11 Amendments

We reserve the right to make any changes or modifications hereto in our sole discretion from time to time. Amended Privacy Policy shall become effective immediately on the date it is posted unless we state otherwise via our notice of such amended Privacy Policy. An amended Privacy Policy shall apply prospectively to the use of our Products and Services after such changes become effective. Your continued use of our Products and Services following the effective date of such changes will constitute your acceptance of such changes. If you do not agree to an amended Privacy Policy, you must discontinue using our Products and Services.

12 Your Rights

The Client has the right of access, rectification of the personal data we hold on you. You have the right to request erasure of your personal data, when obtained on a consent basis, and for this purpose you can contact the controller regarding the personal data via contact@prophet.one.
